

Binghamton University
Department of Chemistry
Fall 2009 Colloquium Program

Science Library 212
Refreshments – 3:30 – 4:00 PM, Seminar – 4:00 PM

Date	Speaker	Title	Host
September 4	Jane Kalikanda Naumih Noah	Student Presentation	Eriks Rozners
September 11	Sarbajit Banerjee University at Buffalo	Building from the “Bottom Up”: Towards Metal Oxide Nanomaterials for the Next Generation of Batteries and Computer Chips	Stan Whittingham
September 25	Emilly Obuya Daniel Mutisya	Student Presentation	Eriks Rozners
October 2	George Wang Ohio State	Chemical Biology of Some Sugar Containing Compounds	Zhitao Li
October 9	James Demas University of Virginia	Luminescent Transition Metal Complexes for Fun and Profit	Anthony Tomcykoski
October 16	Elizabeth Crew Corey Mitchell	Student Presentation	Eriks Rozners
October 23	Webster Santos Virginia Tech	Thinking outside the box: targeting RNA structures with branched peptides	Eriks Rozners
October 30	Joab Onyango Robert Congdon Eliud Mushibe	Student Presentation	Eriks Rozners
November 6	Harry Stern University of Rochester	Computational Estimation of Protein-Ligand Binding Affinities	Christof Grewer
November 13	Daniel Appella NIH, NIDDK	Synthetic Platforms for Nucleic Acid Detection, Ligand Display, and RNA Targeting	Eriks Rozners
November 20	Anthony Tomcykoski Megan Roppolo	Student Presentation K. Keith Innes Summer Research Grant Clifford E. Myers Summer Research Grant	Eriks Rozners
December 4	David Mootoo Hunter College	TBA	Zhitao Li
December 11	Slivana Andreescu Clarkson University	TBA	Wunmi Sadik
